AMA
ASK ME ANYTHING

PROMOTION PROPOSAL 2022

Introduce Your Project

Make them happy

Reach Indonesian Community

Introduction

ID Crypto Official is an Indonesian Crypto Community developed since 2018
formed to provider education around the world of cryptocurrency :
Trading, Airdrop info, News and etc about Cryptocurrency.

Audience target

Our main target is the people of Asia, especially the Indonesian region,
but we have now been reached by some people from the UK and the US
and this is the second target for our next outreach after Asia and Indonesia.

Partnership

About partnership we have more connecting,
like Tokocrypto, Hotbit, Krystal Wallet, Definix, Xinfin XDC, Yooshi and etc.
We have a cooperation bond with Tokocrypto, and the cooperation started from the AMA
with a few months of cooperation until the contract expired.

Event Details

NAME OF ACTIVITIES
AMA (Ask Me Anything)

THEME ACTIVITIES
Project Introduction

VENUE AND TIME
ID Crypto Official Telegram Group : https://t.me/idcryptoofficial
Time adjusted by the project team

This event was organized with a view to increase the knowledge and educational tools for community about the project you are doing. Also in the context of the deepening of knowledge and as promotional medium.

AMA Plan

(1) Project introduction : At the start of AMA, we can mute the group for guest to introduce themselves, and the team will ask a number of questions to the guests, questions that were discussed before the AMA started

(2) Twitter Questions : We use community member questions from our twitter post for a few days (1-2) before the AMA. From that pool of questions, your team selects 3-5 best questions to answer.

(3) Free Asking : During this section, we open chats in our group so that the community can ask questions directly. Usually we open a chat for a few minutes where we gather several hundred messages. Our guests then choose and answes the 3-5 best questions in it.

Our Social Media

Our social media is huge in Indonesia and is fully real active members without bots or paid subscribers and continues to increase its members every day.
